Professional Summary

Computer Science graduate specializing in Software Engineering with hands-on experience building full-stack web applications and AI-integrated platforms. Quick learner who adapts rapidly to new technologies and thrives in solving complex technical challenges. Passionate about system automation and developing scalable business solutions.

Education

King Abdulaziz University

Bachelor of Computer Science (Software Engineering Track) | GPA: 4.60 / 5.0

Jeddah, KSA

2020 – 2025

Experience

Saudi Structures Contracting Company

Application Developer

Nov. 2025 – Present

Jeddah, KSA

- Designed and built bilingual AI-powered personality assessment platform integrating OpenAI API with automated report generation and data visualization.
- Developed Google Apps Script automation workflows for data processing, system integration, and business logic implementation.
- Managed Odoo ERP user access controls and provided technical support for system configurations and reporting issues.

Jeddah Advanced Driving School

Full Stack Web Developer Intern

June 2024 – Aug. 2024

Jeddah, KSA

- Refactored company website modules to enhance UI/UX responsiveness across different devices.
- Developed a trainee management database system using PostgreSQL and implemented core CRUD features.
- Collaborated with cross-functional teams to translate business requirements into technical features.

Projects

GeoVision Explorer (Graduation Project)

2024 – 2025

- Built a mobile application using Flutter and Firebase for interactive geometry education and measurements.
- Implemented YOLOv5 and OpenCV for real-time object recognition and spatial calculations.
- Deployed machine learning models via Flask REST API for cross-platform integration and functionality.

Eye Disease Analysis System

2024

- Developed a web-based medical diagnosis tool using Deep Learning models for eye image analysis.
- Utilized YOLOv8 and Faster R-CNN for high-precision image segmentation and detection.

Skills

Languages: Python, JavaScript, Java, SQL, Dart (Flutter)

Tools & Frameworks: Django, Flask, Odoo, Google Apps Script, Firebase, React

Core Competencies: Software Engineering, Full-Stack Development, API Integration, System Automation

Soft Skills: Problem-Solving, Team Collaboration, Communication, Time Management, Adaptability, Quick Learner
